## SPANIARDS DRIVEN OUT

Caimanera Bombarded by the American Fleet.

BOMBS FELL IN TORRENTS.

The Cowardly Dons Soon Scampered From the Forts.

TOWN ALSO HASTILY DESERTED.

An Order Was Given to Apply the Torch In the Event That the Americans Made an Attempt to Land, but the Outcome Is Not Known.

Cape Haitien, Haiti, June 9.—It is reported here that a great battle has taken place at Caimanera, in the bay of Guantanamo.

At 5:30 Tuesday morning five ships of the American squadron opened a heavy bombardment of the fortifications of the town.

There was a perfect hail of bombs in the bay, striking and demolishing many houses beyond the fortifications. On the Spanish side the artillery replied vigorously, maintaining for some time a stout resistance.

The fire from the warships, however, never slackened for an instant.

It was regular and carefully directed, and a great majority of the shots proved effective.

The Spaniards were forced to abandon their positions on the shore and retreat to the town of Caimanera proper.

It is supposed that later they fled from that position also with the inhabitants.

Information has reached here that the Spanish at Santiago and Caimanera are preparing for a final desperate struggle, and are determined to resist the assaults of the Americans to the last extremity.

The commander of the district issued orders to burn Caimanera before yielding it into the hands of the Americans.

The latter forced the entrance of the bay of Guantanamo, and, according to the latest advices from Caimanera, it was feared that the Americans would make an effort to land.

Measures to prevent this, if possible, have been taken by the Spanish. The American fleet was still maintaining its position.

Cable communication with Cuba, which had been interrupted for many hours, was partially restored Wednesday afternoon, but it is still difficult and precarious. The report of the bombardment at Caimanera came by cable.

The bombardment destroyed a little house which sheltered the shore connection of the French cable at Caimanera, though whether by the explosion of bombs from the water or by explosives used by a party sent for that purpose is not known.

The cables uniting the main cable with the office at Caimanera and the town of Caimanera with Santiago were cut, thus accounting for the prolonged absence of intelligence here as to operations in that vicinity.

It is also believed that the cable at Santiago is cut, as no direct news from Santiago has yet been received at Cape Haitien since Monday at midnight.

Full Report Asked For.

Washington, June 9.—The president has directed Admiral Sampson to prepare and forward at once a detailed report of the gallant action of Lieutenant Richey Parson Hobson at Santiago, and as soon as that is received will send a special message to congress recognizing the heroism displayed not only by Hobson himself but also by the men who accompanied him.

Captain Phillip Not Injured.

Kingston, Jamaica, June 9.—The report circulated in the United States that Captain Phillip, commander of the United States battleship Texas, had been seriously injured by a shell during the bombardment of the Santiago fortifications on Monday is absolutely without foundation. Captain Phillip received no injury whatever.

Battle Momentarily Expected.

Cape Haitien, Haiti, June 9.—The Americans and insurgents have formed a junction near Santiago and a land attack on the city is momentarily expected. The Spaniards claim to have 24,000 troops in Santiago.

To Spike Guns.

Washington, June 9.—Naval officers expressed the belief that about all of the force landed Monday from Sampson's fleet were marines, and that their purpose was not so much perhaps to take military possession of the landing as perhaps to spike some guns and de-

stroy some batteries that might have been re-occupied by the Spaniards. One object of Admiral Sampson's attack was pointed out at the navy department. This was to prevent the Spaniards from making a successful attempt to remove the obstruction of the channel caused by the wreck of the Merrimac. Having silenced the forts at the entrance of the harbor, which while effective obliged the American fleet to lie many miles out to sea, Sampson will now be able to place one or more of his ships close to the mouth of the bottle.

Anxious For Hobson.

Washington, June 9.—Some anxiety is felt here for the safety of Lieutenant Hobson and his associates in the recent Merrimac exploit. It has been reported that they were imprisoned in Morro castle, and as the stories represent that defense as having been badly battered, it is wondered whether the Spanish commander permitted them to be exposed to the fire of the United States ships. The general impression is that Admiral Sampson did not pay any attention to the report that the men were imprisoned in the fortress, but depended upon the Spanish to remove them to a place of safety, in case they found that the fort was to be bombarded.

Germany's Bluff Called.

Philadelphia, June 9.—Captain Aarhuus of the German steamer Schleswig, which arrived here from Kingston, Jamaica, was given a hearing before Collector of the Port Thomas for violation of the maritime laws, in attempting to enter this port without first having obtained clearance papers from the custom officers of Kingston. After hearing his case Collector Thomas decided that the captain should make a deposit of \$5,000 for his liability, pending final action. Captain Aarhuus refused to deposit this sum and the case was referred to Washington for final action. Meanwhile the Schleswig is in the custody of the customs authorities.

Spanish Spy Arrested.

Mt. Gretna, Pa., June 9.—Lieutenant Colonel Rutledge, provost marshal at Camp Hastings, ordered the arrest of a man giving the name of Arrara, who is suspected of being a Spanish spy. Arrara appeared at camp a week ago and presented a letter purporting to be signed by the president of Guatemala. He showed proficiency in the use of English, French, German, Italian and Spanish languages. He was observed from time to time questioning the enlisted men and invariably shunning any communication with the officers. When searched after his arrest \$800 was found on him.

Not Working For Spain.

Washington, June 9.—In reference to repeated assertions that William A. Pinkerton of Chicago had been to Washington to confer with the war and navy departments, in reference to spies in this country, it is authoritatively stated at the treasury department that Mr. Pinkerton had no such call as has been reported. He visited Washington principally for the purpose, it is said, of assuring the various heads of departments that his agency was not engaged in working for Spain.

Return of Emerson.

New York, June 9.—Edward Emerson, Jr., an attaché of the war department bureau of information, arrived here on board the steamer Mediana from St. Thomas, after having performed some hazardous service in Porto Rico. Transforming his name to Emerson, he procured a bogus German passport and went to San Juan, ostensibly as a correspondent of the Berlin Deutscher Zeitung. Mr. Emerson told an interesting story of his escape after being arrested.

Captain of an Insurgent Company.

Massillon, O., June 9.—The parents of Albertus Slusser, the Massillon boy who joined the Cuban insurgent army several years ago and who was reported killed in an engagement, have received a letter from him in which he says he is still in Cuba, and is the captain of a company of insurgents. He says he was badly injured in a fight, but has since entirely recovered.

Preparing to Get Out.

Montreal, June 9.—Although Messrs. Carranza and Du Bosq, Spanish spies, pretend not to believe that they are to be ordered out of the country it is known they are making preparation to leave. Detective Kellert's case has been fixed for argument in the practice court at once.

Water-Laden Barge Lost.

Charleston, S. C., June 9.—A water-laden barge and her crew of five men in tow of the steamer Leonidas were lost last Saturday between Norfolk and Charleston. The Leonidas and her charge were en route from Norfolk to Key West to supply the army and navy.

Ohio Soldier Insane.

Washington, June 9.—So far as

known at Camp Alger nothing has been decided upon as to moving the troops. Private Wright, company G, Seventh Ohio, will be sent to his home at Chillicothe, O. He is suffering from insanity.

The Reina Mercedes Sunk.

Madrid, June 9.—It is officially announced that the Reina Mercedes was sunk during the bombardment at Santiago de Cuba Monday. The Vizcaya was also damaged.

Nothing More From Sampson.

Washington, June 9.—No further word from Admiral Sampson was received at the navy department. The bulletin made public by the department in confirmation of the press reports of the attack upon Santiago Monday is believed to be merely a skeleton statement of Admiral Sampson's cablegram, which it is surmised contains a good deal more information than it was deemed prudent to make public.

Very Wise Precaution.

City of Mexico, June 9.—A probably wise precaution has been taken by the United States treasury department in cautioning American ship captains in Mexican ports not to allow strangers on board their craft, as there are many fanatical Spaniards in Port Ciudad. The Clerical party is pro-Spanish, and strongly so, but the great Liberal party leaders are not taking the same view. Many of them are frankly for the American side.

Blockade at Cardenas.

Key West, June 9.—An auxiliary gunboat which arrived here from Cardenas reports all quiet there, except that the auxiliary gunboat Leyden is making things very lively for the Spaniards by blazing away at them whenever she sees a movement on the Spanish gunboats or on the defensive works at Cardenas.

What the Spaniards Get.

City of Mexico, June 9.—The local organ of the Spanish colony continues to assure its readers that Dewey is in a trap at Manila and that the American fleet has been defeated at Santiago de Cuba. The policy of this paper is to keep its readers in ignorance of Spanish defeats as long as possible.

St. Paul Sails.

New York, June 9.—The auxiliary cruiser St. Paul sailed at noon under sealed orders. She has taken aboard since her arrival off St. George, S. I., on Friday, nearly 5,000 tons of coal and 250,000 gallons of water.

Victory For Cubans.

New York, June 9.—News has reached the Cuban junta in this city of a victory achieved by the Cuban forces over a division of the Spanish army at Jiguani, province of Santiago, on May 22. It was decisive.

Remains to Be Cremated.

Washington, June 9.—Captain Gridley's remains will be cremated in Yokohama.

Are Labor Organizations Trusts?

Columbus, O., June 9.—Labor organizations are fearful that the courts may construe the anti-trust law enacted by the legislature last winter to apply also to labor unions as trusts of the commodity of labor. John T. Shaffer, president of the Amalgamated Association of Iron and Steel Workers, has written a letter to Secretary Joseph Bishop of the state arbitration board in regard to it. Probably a test case will be brought to test the matter.

Washington, June 9.—Soon after the senate convened Mr. Hale (Me.), chairman of the naval affairs committee, reported favorably a bill to organize a hospital corps of the United States navy, to define its duties and regulate its payment. The bill was passed. Under the bill, pay of hospital stewards shall be \$60 a month, hospital apprentices \$20 a month, with the increase on account of length of service.

BURNED TO DEATH.

Horrible Fate of Three Children From Oil Explosion.

Pittsburg, June 9.—Three children met death in a frightful manner in Allegheny. By the explosion of a can of oil their clothing was ignited and the children burned so terribly that they died in a short time. The victims were Ella, Edith and Harville Watts, children of Charles Watts of Ferney's Hill, aged 11 and 7 years and four months, respectively. The eldest child proved herself a heroine, for, with the flames roasting her body, she tried to carry her baby brother to a place of safety. Mrs. Watts was also burned in trying to save her children.

The children were playing in an out-house of the yard and one of them struck a match. In the same room was a large can containing two gallons of oil. When the match was thrown down it dropped into the can and the explosion followed instantly.

Criminals Break Jail.

Evansville, Ind., June 9.—Three burglars and safeblowers, George Wagner, John Klein and John J. Smith, escaped from the Vanderburg county jail. The men had secured a strip of iron, of which they made a chisel by sharpening one end on the stone floor. They improvised a saw from the steel plate of a bed. With these instruments they forced open the doors of the cells and sawed a hole in the roof. They lowered themselves by a rope made of strips of blankets.

The bill reported is the regular committee measure. It authorizes every money order postoffice to receive deposits for any sum in excess of one dollar and allows interest at the rate of 2 per cent.

## SITUATION VERY GRAVE

Spanish Wail Comes From the Philippines.

DONS IN IMMINENT DANGER.

Province of Cavite Has Completely Rebelled.

MANILLA IS SOON TO BE TAKEN.

Captain General Augusti Notifies His Government That Natives Are Not Loyal and That He Will Be Compelled to Surrender.

Madrid, June 9.—The following communication from Captain General Augusti, dated at Manila, June 3, has been published here:

"The situation is very grave. Aguinaldo has succeeded in stirring up the country, and the telegraph lines and railways are being cut.

"I am without communication with the provinces. The province of Cavite has completely rebelled, and the towns and villages are occupied by numerous bands.

"A Spanish column defends the Zapote line to prevent the enemy from invading the province of Manila, but the foe has entered through Bulacan, Laguna and Moron, so that Manila will thus be attacked by land and sea.

"I am striving to raise the courage of the inhabitants, and will exhaust every means of resistance; but I distrust the natives and the volunteers, because there have already been many desertions. Bacor and Imus have already been seized by the enemy.

"The insurrection has reached great proportions, and if I can not count upon the support of the country the forces at my disposal will not suffice to hold the ground against two enemies."

General Correa, minister of war, and Captain Aunon, minister of marine, went to the palace to confer with the queen regent as to General Augusti's communication.

It is reported that the Spaniards at Manila have already been compelled to take refuge in the fortified part of the town.

United States Consul Sereinaded.

Singapore, June 9.—The local Philippine insurgent committee received a dispatch from Aguinaldo, saying he had taken all in the province of Cavite and several towns in the province of Batangas; had captured 10 guns, 600 rifles and 1,200 Spaniards from Spain with 800 Philippine Spaniards, killing 30, and that the governor general proposes to capitulate. The Philippines in Singapore are serenading the United States consul.

Mr. Silsbee states that the Indians have positively refused to give up the murderers.

### HOBSON'S BRAVERY.

He and His Men the Subject of Unstinted Praise in England.

LONDON, June 6.—Every evening paper of this city echoes the morning papers' praise of Lieut. Hobson's exploit with the collier Merrimac at Santiago de Cuba, which they saw was a gallant deed, ably planned and pluckily carried out.

The Pall Mall Gazette says: "The heroism of those men and the courteous chivalry of Admiral Cervera will not be forgotten in a hurry."

Continuing, the Pall Mall Gazette says that it thinks that as a result of the American expedition, the naval war between Spain and the United States is practically finished and the paper adds: "Had the Cadiz squadron meant business it would not have dallied until Admiral Cervera's fleet had been rendered useless."

The Gazette concludes by commenting on the probable military operations, saying:

"It will pay America to secure both Porto Rico and the Philippine islands before peace is discussed. For peace on the only possible terms Spain is not ready. The government dare not face the music. To surrender now would produce a revolution at home, hence it is preposterous to talk of the basis of status quo ante bellum. Peace, when it comes, will have a very different basis, and the seizure of Porto Rico and the Philippine islands will place America in a position to dictate the only terms she could possibly accept."

The Westminster Gazette, referring to Admiral Cervera's action in connection with the capture of the Merrimac crew, says:

"It is an incident which ennoble war and surely helps in securing honorable peace. The United States may well be generous to such chivalrous efforts."

### A TOTAL WRECK.

Disastrous Mistake For the New Stern Wheel Steamer Iskoot.

Victoria, B. C., June 9.—The new stern wheel steamer Iskoot, belonging to the Klondike Mining, Trading and Transportation company, has been wrecked on a rock in the West inlet.

She will be a total loss. She was on her way to the Stickeen, in charge of Captain McLennan and Pilot O'Brien. It is stated that the pilot mistook the channel which leads into the West inlet for the mouth of the Skeena river.

The Iskoot was one of the finest river vessels on the Pacific coast. She was insured for \$20,000.

The charges against Mollie Lewis, John Jenkins, John Bennett, Thos. Poe, Mary Ball and George Dellman were dismissed by the grand jury.

## CYNTHIANA.

That's Where the Democratic Congressional Convention Will be Held.

Wednesday, August 10th, the Date—County Conventions to be Held Saturday, August 6th.

The convention to nominate the next Democratic candidate for Congress in this district will be held at Cynthiana Wednesday, August 10th.

This was decided at the meeting of the District Executive Committee at the Central Hotel yesterday.

It was also decided that the county conventions to select delegates shall be held Saturday, August 6th.

It was left to the various county committees to decide whether the county conventions shall be mass meetings or precinct meetings.

It was also decided that the Chairman of each county committee shall fix the place of holding his county convention. The basis of representation was fixed at one delegate for each 200 votes or fraction of 100 or more cast at the last Presidential election, the vote of the highest Bryan elector to be taken.

The county conventions are to be called to order at 2 p. m. and the district convention at 11 a. m.

The meeting of the committee yesterday was presided over by the District Chairman, Mr. J. N. Kehoe, and Hon. G. R. Keller, of Carlisle, acted as Secretary.

All the counties in the district were represented, among those present being Hon. G. R. Keller, J. W. Dalzell and H. C. Kimbrough, of Carlisle; A. P. Darnall and Dr. H. C. Kehoe, of Flemingsburg; W. ### WILSON WAS SURPRISED.

Says That Congressman Pugh Is Responsible For His Trouble—Wanted To Hold Wilhoit in Line.

OWENSBORO, Ky., June 7.—John H. Wilson, Assistant District Attorney, was very much surprised when he received a telegram that his appointment had been revoked. He attributes the throwdown to Congressman Pugh, who, he says, attempted to stand off the appointment until after his congressional convention, which meets on June 28th in order to hold Wilhoit in line, to whom he is under promise. He is sure his appointment will be made again on July 1st.

In answer to a taunt that his appointment was hurried up so he could help his friend Franks out of a civil service charge, he laughingly replied:

"If that is so, they didn't remove me quick enough. The charges have been exploded. The grand jury to-day investigated the alleged violations of civil service, but adjourned without action."

### School Board Meeting.

At the meeting of the Board of Education last evening, Mr. H. C. Smith was re-elected Principal of District School No. 1, and Mr. E. Swift, Principal of District No. 4.

The Board declined the proposition for the sale of St. Francis de Sales Academy to the city for \$35,000. It was thought the city was not in condition at present to spend that sum on a school building.

In the Circuit Court Wednesday, Charles Warner and Gus Thomas, colored, were acquitted of the charge of robbery.

### Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hannick & Co., of Shelby, N. C. Trial bottles free at J. James Wood's drug store. Regular size \$1.00 and \$1.50. Every bottle guaranteed.

As a result of Judge Taft's decision in the Kentucky bank franchise cases suits have been filed at Lexington by City, County and State Back Tax Collectors against eleven banks and one trust company for back taxes since 1892, amounting to \$630,000. The collectors all get a per centage of back tax collections, and would have gold mines if the State law, preventing any city or county officer from making more than \$5,000 per annum, didn't stop them.

### FAMOUS CAPTURES

Against Big Odds at Alexandria and City of Mexico.

[New York World.]

On July 11th, 1882, a British fleet of eight battleships and cruisers, five gunboats and one dispatch boat bombarded the fortifications of Alexandria.

The fleet was vastly inferior to the fleets of Sampson and Schley. The fortifications were equal, if not superior to the fortifications of Havana.

In a single day the fortifications were ruined, the guns were silenced, the gunners were killed by the hundred, wounded by the thousand.

The British loss was six killed and twenty-seven wounded, and not a ship was totally disabled.

In 1847 General Scott landed at Vera Cruz with about 10,000 men. He made a slow and painful march over the mountains, 300 miles, to the City of Mexico.

He left garrisons and guards on the way, and so arrived with about 6,000 men. The city was strongly situated, strongly fortified and defended by an army in better condition than Blanco's army is to-day.

General Scott stormed the city, captured it and occupied it, and held it for about nine months, until peace was arranged.

Not 100,000 men, but 6,000 men!  
—And the City of Mexico is not a seaport.

### Who Was He?

Ripley Bee: "A man from Maysville came near drowning in the ell hole in Eagle Creek last Thursday. He could not swim and went over an offset. After he had gone down the third time, Jesse Griffith dived in and brought him out and he was restored."

### Knew His Business.

[Enquirer.]

Lieutenant Hobson, who was in command of the valorous little party which sunk the collier Merrimac across the narrow entrance to the harbor of Santiago de Cuba, so as to shut the Cape Verde fleet in, is entitled to towering credit in more ways than one. He conceived the idea of sinking the boat; he made the plans, and he carried them out; and after escaping from the sinking craft he showed the highest order of sense in making direct for a Spanish ship. Had he tried to make a landing he and his gallant party would have been shot to death.

THE Democratic Judges of the Court of Appeals will hold a caucus in the next few days, at which a nomination will be made for the new Custodian of Public Buildings. Mr. C. B. The position pays \$1,200 per annum, and the tenure is for four years. The office was created by the late Legislature.

### ROBINSON--RILEY NUPTIALS.

A Pretty Wedding Solemnized Wednesday Afternoon at the Home of the Bride.

The marriage of Miss Elizabeth Drake Riley to Mr. William Robinson Wednesday afternoon was one of the pretty nuptial events of the season.

The beautiful and impressive ceremony that added another to the list of happy young wedded couples was solemnized at 2:30 o'clock at the home of the bride's mother, Mrs. Mary G. Riley, of 480 West Second street. Rev. Howard T. Cree, minister of the Christian Church, officiating.

The cosy parlors had been darkened, and soft rays from chandelier lighted up the scene as the vows were spoken that made the twain one. Mrs. F. B. Ranson presided at the piano and the sweet notes of wedding march floated in from the hallway as the couple entered the parlors, preceded by the ushers, Mr. Eneas Myall, of Mayslick, and Mr. Stanley Watson. After the ceremony some time was spent receiving the congratulations and good wishes of the large number of relatives and intimate friends, and then the newly-wedded left on the 3:25 train for a few days sojourn in the Queen City. Some of their more superstitious friends saw to it that their departure was accompanied by the proverbial old shoe and by showers of rice.

On their return they will make their home for the summer with the groom's parents near Broshears Station.

The fair young bride was arrayed in a strikingly handsome traveling suit of burnt brown covert cloth, trimmed in bird orange and dark velvet. She is the oldest daughter of the late S. S. Riley, and would have been graduated this week from the Maysville High School had she not chosen to lay aside her studies and become a happy bride. She is connected with some of the county's old and influential families, and is one of Maysville's most estimable young ladies. The groom likewise belongs to one of the county's old and highly esteemed families, being the only son of Mr. and Mrs. Rufus K. Robinson.

The couple received many very elegant wedding presents.

For and maintain it is a fact that there is a higher order of intelligence evinced in the buying of general merchandise by the people in this and nearby counties than most anywhere else. ## ONE OF THEM WAS MARRIED.

The Other Would Have Been, but Her  
Lover, at the Last Moment, Be-  
came Remorseful and Tore  
Up the License.

Lexington, Ky., June 8.—Ex-Post-  
master John Taylor of Richmond left  
for home with his eloping daughters  
Misses Ruth and Grace, although the  
latter is the lawful wife of Ben Way  
of Louisville.

The girls eloped with Way and Ben  
Armstrong, and were intercepted here  
by officers, and at 2 a. m. were before  
a magistrate with licenses to be mar-  
ried.

Way and Miss Grace were married,  
but when the magistrate turned  
to unite Armstrong and Miss Ruth the  
young man tore the marriage license  
in twain.

The girl declares she will not marry  
him. Miss Grace says Way told her  
he would return for her and both young  
men left for their homes in Louisville.

The girls are prominent in Madison  
county and very pretty. The young  
men have brothers in the First reg-  
iment here and seem to have been in-  
tending to take the girls over to Cin-  
cinnati.

## PITHY POINTS.

If a man wants to drink whisky, that is his  
own business, says the saloon apologist.  
Let's see. When Bod Poland and Coon Parker  
were drinking in Heflin, Ala., last Saturday  
night, and in their spree ran a car of the South-  
ern railroad off the switch and on to the main  
track down the grade till it stopped on a high  
trestle, it became the Southern railroad's "busi-  
ness."

And when a loaded freight train came along  
and rushed into the car, causing a \$100,000 wreck,  
destroying much valuable merchandise, it be-  
came the business of a great many merchants  
and shippers, as well as the railroad.

And when those dead bodies were dug out from  
under the wreck, it became the business of  
some wives and orphans.

And when the taxpayers are called upon to  
support the families, whose natural providers  
have thus been suddenly taken away, it will be-  
come the business of several other people.

One man's drinking often becomes the busi-  
ness of several hundreds of thousands of people,  
and the man who can not perceive this fact  
ought to be sent at once to an institution for the  
education of the feeble-minded.

It's easier to start a mill, if you have one, than  
it is to start a bank.

If every whisky seller were required to give  
bond that no damage would result from liquor  
furnished his customers, either to themselves or  
their neighbors, there would not be so many  
men in the business.

he neglects more than anything else. It is easier

man feels himself running down, when he real-

halt. The strands of his rope are parting rapidly.
